Behavioral Health Programs for Healthy Living

SPIRITT's uses an array of evidence based practices to work with individuals with mental health, substance use disorders or with co-occurring disorders. The child, youth and family mental health program is designed to help improve daily living for children and youth exhibiting emotional and behavioral problems. Our outpatient substance abuse program provides a full range of prevention, treatment and recovery services for youth and adults. Individual, group, family counseling and psychiatric assessment services are offered at no or low-cost for low-income families.
